FORTY-FIFTH CONGRESS. Passage of the Potter Resolution.

By Telegraph to the News. WASHINGTON, May 17 .- SENATE-Mr. Davis, of Illinois, from the Committee on the Judiciary, reported, with amendments, the Senate bill to provide for the appointment of an additional Uncuit Judge in the Second Judicial Circuit, composed of New York, Vermont and other Eastern States.

Placed on the calendar.

Mr. Ferry, of Michigan, from the
Committee on Post Offices and Post
Roads, reported the post route bill with
numerous amendments. Placed on the calendar.

Mr. McMillan, of Minnesota, from the Committee on Claims, reported, with amendments, the House bill making an appropriation for the payment of claims allowed by the Southern Claims Commission: Placed on the calendar.

Mr. Davis, of Illinois, from the Com-

mittee on the Judiciary, reported a bill to provide for the appointment of an additional Circuit Judge in the Seventh Judicial Circuit, composed of the States of Illinois and Wisconsin. Placed on the calendar.

House.—The long struggle in the House over Potters resolution resulted to-day in a victory for the Democrats. and in the adoption of the resolution Democratic members who had been ab-sent or paired off Monday last, when the resolution was offered, had been since then recalled to the city or had given notice of the termination of their pairs, and to-day there were present in the House, free from entangling alli-ances, 148 Democratic members including the Speaker. After various preliminary movements, comprising a call of the House, the closing of the doors the issuing of warrants for absentees none of whom were in the city, a final vote was taken on the adoption of the preamble and resolution. Not a single Republican member had his vote recorded and but two Democratic members-Mills, of Texas, and Morse, of Massachusetts, voted in the negative. The affirmative vote was 145 and the preamble and resolution were declared adopted.

There was a good deal of confusion. uproar and excitement throughout the day, but no demonstration attended the announcement of the result. Mr.

Stephens did not vote, as he was paired. An incident occurred over this ques tion of pairs which at one time threatened to be serious. Goode, of Virginia, had been paired with Loring of Massachusetts who was in the city but sick and when Goode stated the fact that he had given notice to Mr. Loring of the termination of the pair, and that under the circumstances he felt it his dnty to vote, a sneering remark that it was simply a question of honor was made by Conger, of Michigan. Goode retorted with a strong feeling of indignation that he would take care of his own honor and that if Conger assailed it he (Goode) would hold him to a personal responsibility. The response was loudly applauded on the Democratic side and was received with jeers and contemtuous laughter on the Repubcan side, Conger remarking sarcasti-cally that Goode threat was making him tremble is his boots. Goode's remark was objected to by Hale of Maine as being unparliamentary, but the Speaker decided that the first offence had been given by Conger and that it would be as reasonable to expect a child not to holler when struck, as to expect a man not to resent an insult. Speaker's ruling gave intense satisfac tion to the Democrats and displeasure to the Republicans. As soon as possible after organization, sub-committees will be appointed and will proceed to Florida and Louisiana.

It is very probable that the Republicans will to-morrow offer a resolution to extend the investigation to Oregon, Mississippi, South Carolina, and other

States.
The President sent a message to the Senate recommending an appropriation for the fishery commission award, leaving the disbursement to the Executive. Mr. Evarts having raised some technical questions in the matter.

LETTER FROM HON. F. E. SHOBER TO JUDGE DAVID

Speeches Made in Behalf of the Democracy.

Published by Request.
SALISBURY, May 8th, 1878. Hon . David Schenck :

My DEAR SIR: The charge that you have never made but one Democratic speech, is entirely unfounded, and does you great injustice. When I was a candidate for Congress, in the Fall of 1868, you not only made a number of Democratic speeches in my hearing, but aided me and our cause very materially in the counties of Catawha terially in the counties of Catawba, Lincoln, and Gaston. The campaign opened at Newton, when you were there attending court; but as I was then physically unable to participate in the discussion with my competitor, JUDGE BOYDEN, you very kindly, at my request, consented to represent me. This you did in the most effective manner,

and in a telling and spirited reply obtained the advantage so decidedly as to call forth the heartiest applause from the large audience there assembled.

1 subsequently, and in the course of the campaign, met you and Judge Os-borne at Beattie's Ford, and was thereafter with both of you for several days, engaged in canvassing Lincoln and Gaston. During that time we spoke at a number of places, you doing your full part on each occasion, zealously and ably.

I have repeatedly made you my acknowledgements for the assistance you rendered me there, and I take pleasure in again renewing them. If this is of any service to you, I shall be pleased if you use it in any way you may deem

proper. Very truly yours, F. E. Shober. Anything that will drive away those Tammany Hall Meeting.

The City of Nashville.

Special Correspondence of the News. NASHVILLE, TENN., May 14, 1878. Nashville is called the Rock City, beng located on an extensive deposit of imestone—it has about 40,000 souls, and is a very beautiful city in itself and its surroundings. Its Capitol is the finest I have ever seen, having cost-about six millions of dollars, and within its symmetrical walls lie the remains of the architect, a Mr. Strickland, who planued it, and who was so unfortunate as to die before it was finished.

VANDERBILT UNIVERSITY. The next most notable building of the city is the Vanderbilt University. This structure is of brick, capped and orna-mented with stone, and is very costly, mented with stone, and is very costly, but to my taste, somewhat marred as to architectural beauty, by two immense towers, which loom up above the roof in front, and by their massive proportions, and especially their heavy ornamentation at the top, look as though they would crush the buildings, still, this is a small matter—the buildings. ing is a noble one, and its appointments are very fine. I was very kindly conducted all over it by Prof. Arnold, a friend of my genial friend, Prof. A. W.

Mangum.
The reader can form some idea of the style in which the establishment is fin-ished, when I tell him that the chemical and philosophical apparatus of the nstitution cost \$32,000. The building, with the Professors' houses and general appointments, cost \$457,000, and it has in endownment left of \$600,000. There are 15 professors, who receive on an average \$2,500 a year and a capital home to live in. There are 400 students in attendance, counting the law and medical students, who belong to institutions in the city, but connected with the University. I forgot to mention that the University is located on a magnificant bill a spile for the city of the country of the country of the city of the country of the city of th nificent hill a mile from the city. No dormitories are supplied to students in the University, but they are accommodated by large boarding houses outside of the grounds.

FISK UNIVERSITY.

In full view of the Vanderbilt, to the ight as you go from the city, is this amous school for the education of the colored people. Gen. Clinton P. Fisk, then of St. Louis, but now of New York, gave a few thousand dollars to his institution in its origin. He is a Methodist, and yet this school is con-trolled by the Congregationalists—how that came about I don't know, but such s the fact.

This University has a beautiful situation and splendid house which cost \$50,000, most of which was collected by the Fisk Jubilee Singers.

On the other side of the Vanderbilt, sible, more beautifully located, is the Baptist Normal School, for the education of colored teachers and preachers.
This property cost \$100,000, and is admirably conducted. It is under the direction of the Baptists North. Then there is the old Nashville University, which has buildings scarcely surpassed by any in the South, though not so prosperous now as formerly, and to these must be added two Medical Colleges in the city, and the City High School, where 1,200 youths are trained n advanced studies, the special pride of the city; with lastly, the Cumberland Presbyterian Female Sen inary of Mr. Ward, where there are 300 young ladies pursuing their studies-truly, the City of Rocks should excel in intelli-

Your readers will pardon me for saying that I was much gratified by a call from T. A. Sykes, who used to represent the county of Pasquotank in the Legislature of North Carolina. Sykes is the colored man who took care of his old mistress, Mrs. Granbury, so well, and was so much respected by all classes who knew him. He is now residing in Nashville; he is a Magistrate and a Revenue Officer, and stands at the very head of his race, as a man of intelligence and honor.

And now, in taking leave of those who have been pleased to read these letters from Nashville, I must pay a tribute of thanks to the host and his family who entertained me so handsomely—the genial gentleman the ripe scholar, the accomplished pulpit orator, the man of splendid geniusthe Rev. T. G. Jones, D.D., paster of the First Baptist Church, Nashville.

LINCOLN COUNTY.

A Word for Schenck-His Political and Campaign Records.

Correspondence of the NEWS.

LINCOLNTON, N. C., May 15th. The coming State Convention will be charged with the great duty of preserving the present masterly strength of the Democratic party. The West, in every campaign, in every trying action in the Legislature, in the Convention, or at the ballot-box, has always done her full measure of duty to the State, and she will demand that her wishes and her interests be consulted and respected in

THE CHOICE OF THE WEST.

CONVENTION CAMPAIGN OF 1871.

In 1871, when our eastern friends sought relief and struggled to rid themselves of the Canby Constitution, Judge Schenck's voice again was raised in behalf of cur suffering people, and he fought the giant strength of the Radicals so successfully as to elect the gallant, lamented Alfred J. Morrison to the lant, lamented Alfred J. Morrison to the Convention. Such service as this (and the half has not been told) deserves recognition at the bands of our party. For in all these struggles, Judge Schenck fought without reward or the hope of reward, and labored to advance the right because it was right. The glorious tenth legion of Catawba was drilled by his command, and he helped to organize the close, unbroken columns of the Cleaveland Democracy.

GOOD RECORD. Such in his political record, as it is known to his western friends. His prejudiced record is familiar to all. He has brought his judicial office to the support of the Constitution and the support of the Constitution and the law by attempting to resist the encroachments of Federal power upon local self-government. He has labored zealously to restore the lost fair name of North Carolina Judges, and his great learning and unsullied integrity will illustrate one of the brightest pages in our judicial history.

THE WEST KNOWS HER MAN.

As a man, the west knows him to be honorable and upright in all the qualities that go to make the true, perfect gentleman. Pure in morals, his personal character, is hedged about by a sublime faith, too often wanting in the public men of this age. For these reasons and vouching that he possesses these qualities, the west will bring for-

ward his name. We will support the choice of the East, we will bring out our full strength for the man preferred by the center, and

the same honor.
Such a course is demanded in the interest of the party and of the State by the people and by the LAWYERS.

THE GROWLERY.

The Aldermanic Bolt.

"Many Citizens," (how many not stated), lets fling at five of the Demo-cratic Board of Aldermen, and in the News, a day or two since, charged them with having bolted the caucus nominations. There was not one word of truth in such charge. So far from bolting, the five referred to voted for the caucussees, and distinctly stated that they stood up to the nominations. They had good cause for bolting, if they had seen fit. It was charged that six of the Board had caucussed primarily and decided on a ticket. This they denied, but when they voted, these six voted solidly, and by remarkable coincidence, for the parties for whom it adopted:
was alleged they had previously caucussed. When a bare majority of a caucus proceeds in this way the minor-ty are justified in bolting. But, though indignant, these did not.

Alderman Blake was selected for a special invitation from this "many citizens" to step down and out of the Democratic party. By what right was that invitation extended? What authority had this "many citizens" to speak for the Democrats of Raleigh?
Mr. John C. Blake has always been faithful to the Democratic party. He has served the party in the city for two years as one of the Board of Aldermen. He has done more work than any member of the Board for two years. He has brought the finances of the city out of chaotic confusion. For the first time, under his efforts, the city was able to tell how much it owed. It now pays dollar for dollar, and yet, forsooth, one person, in the assumed guise of "many citizens" belabors Mr. Blake, and invites him to retire! Characterizes a number of well-known Democratic gentlemen as bolters, and charges them with affiliating with Radicals. And all because the Republicaps voted with them on fixing the amount of official bonds, a matter never caucussed on, while the simon-pure six voted solidly, nay. able and interesting oration, and ask-ing that a copy of it be furnished for publication: adopted.

Reports from other societies being called for, Dr. O'Hagan stated that he had represented this society in the Virginia Medical Society which assembled in Petersburg, and noticed their method in Petersburg, and noticed their method of proceeding was superior in many respects and might be copied by the North Carolina Society with advantage, all of its proceedings being subordinate to scientific professional labor. The Dr. was the recipient of that warm condiality characteristic of the Virginians, and thought an exchange of visits desirable.

sirable. Dr. C. T. Murphy believed the Society would do well to examine the mineral waters of the State. He knew the springs of our State were of a high order, and hoped as conservators of the public health it would be well to make

investigation.
Dr. O'Hagan did not think it came exactly under the duties or aims of the Society.
Dr. Hines called attention to the fact that the second assistant physician of

the Insane Asylum had not complied with the law, and, therefore, was not a legalized physician.

Dr. Norcom agreed with Dr. Hines.

Dr. O'Hagan thought the Society ought not to bother itself with so small a matter—the Medical Society of North Carolina and the profession should look

to higher things.
Dr. Jones belived the Society should express an opinion, inasmuch as those men who had not passed the examining board were not doctors in a legal sense.
Dr. Hall did not see that the Society

had any control over the subject. After some further discussion, a mo tion to lay on the table was lost, and Dr. Jones introduced this resolution: Resolved, that the North Carolina Medical Society disapproves of the appointment of any medical officer in any public institution of the State, who has not passed a favorable examination before the North Carolina Medical Board, who has taken his degree since 1859, and that a committee of three be appointed to communicate this resoluion to the Governor and Attorney-

General. Dr. Hiues disclaimed any personal endorsed what Dr. Hines said. Dr. O'Hagan moved to amend the resolution by striking out the words "and that a committee of three be ap-

LETTER FROM JEFFERSON.

JEFFERSON, N. C., May 13, 1878. We have had Judge Cannon with us and think he is a right good sort of man, if he did not have the phthisic and blow like a porpoise. But if a man were going round killing Judges he would not hurt Cannon, unless he exhibited his commission. At Watauga Harmon submitted for manslaughter, and was sentenced for ten years. In Ashe, Sheppard, who is indicted for killing Thomas Fanner, in June, 1877, had his case removed to Watauga, on affidavit that he could not have a fair trial in Ashe.

There is a great scandal here, like unto the Beecher-Tilton scandal. J. S. Ross, the Methodist circuit rider in this county, is charged by Mrs. Dan Idol with having made improper proposals to her, and she informed her husband, who followed the Rev. Mr. Ross to where he staid that night, and next morning picked up a gun and was about to kill him when others, who knew not the cause, interfered and took the gun away from Idol; and in the melee Ross rau out of the house and made his escape.

He went to Tennessee, but has come back and pleads innocence, and alleges the entire falsity of the charge.

Wanted a Man to "Sit With Virginia City Chronicle. Yesterday afternoon a green-looking couple, evidently newly married, called at the photograph gallery of Beals & Waterhouse and wanted their pictures taken, Just as Mr. Beals had got his plate ready the man called him aside and said he wanted to ask a favor. "I was told in Carson that you took the best pictures in the State. Now, you see, Sal and I got hitched down there last Monday; now her folks go a good deal on style, and they live in the States. They never saw me, and if I send my mug back East they'll be dead agin me sure. I'm a darned sight better than I look, and when people come to know me they vote me a brick. Now, what I want is to get some good-lookin' man to sit with Sal for a picture. Will you stand in? She's will-in'. Them big whiskers of yours'll catch 'em sure and create harmony. You look like a solid capitalist, and and said he wanted to ask a favor. "I You look like a solid capitalist, and they'd take me for a petty-larceny thief." Mr. Beals enjoyed the idea immensely, and sat, with "Sal" for the pictures, which will doubtless carry joy into the household of the eastern rela-

tives in a week or so. Old "Thinness,"

Wadesboro Herald. The friends of Merrimon were at first greatly alarmed lest these county meetings should harm Vance by speaking out for him for the Senate. "Jesso." "Gentlemen," said the chicken cock to the horses, "let's have an understanding; if you won't tread on my toes,

won't tread on yours!" Now they are praising him as Governor-"just the man for the place-splendid executive-we want him to stay right where he is!"

Jesso—jesso! And I saw in my dream
as it were, the figure of a man, and one eye was closed, in the manner and form of a wink, and the nose on his face was long, and the thumb of his right rested

upon that nose, with the fingers thereof spread out like unto a fan, and the gy-rations thereof were terrible! Jesso! Fiorida Frauds.

Philadelphia Times.

At last there seems to be a general recognition, even in Congress, of the propriety of a thorough and final investigation of the frauds pepetrated in the electoral count in Florida. The demand therefor comes from the people, and it is but too evident that the politicians in Congress who know so much about what was going on in those days would rather let the dead past bury its dead, lest they should be found perforce among the mourners. It cannot too be clearly understood the present movement for investigation is apparata and ment for investigation is separate and distinct from that having in view the overthrow of the present administration by some visioary process.

Tilden's Nephew. New York Star:

Nephew Pelton's officiousness so disgusted Democratic Congressmen that they came near abandoning all attempt to investigate the Florida frauds, lest to investigate the Florida frauds, lest their action should seem inspired by the Great Collapsed of Gramercy Park. Nephew Pelton had better stay in New York henceforth and look after the Elevated Railroad schemes of his uncle Samuel J. Preventing the sale of the Star along his one-legged monstrosity is an occupation much more suitable to his talents than poking his unwelcome nose into Democratic councils which nose into Democratic councils which have reason to be sick of the whole

The News Building, No. 6, Martin Street

THE WEEKLY.

THE Green county Democrats have endorsed Governor Vance for U. S. Senator. Now listen for somebody to cry out "bad practice! bad practice!"

A COMMUNICATION from New Berne. signed B., has no name accompanying it. The name of the writer is always required by the editor of every wellregulated paper.

THE report of the proceedings of the State Medical Society is completed in this issue of the Nesw. The next annual meeting will be at Greensboro, in May 1879. Dr. Marcellus Whitehead. of Salisbury, has been selected as the essayist; subject, "Spondylitis." Dr. W. W. Lane, of Wilmington, orator.

THOSE gentlemen who oppose Governor Vance's election to the Senate are making the woods ring with his praises as Governor. Vance is a great Governor, they say; too good to be given up for any other public station, whatsoever let him stay where he is; let well enough alone. A very clever trick is this. It might be practiced with success, were all men blind.

MUCH of the space of this paper has o late been occupied with proceedings of religious bodies. It is believed that no more important information can be given to the public than religious intelligence. In the progress of some one or other of the denominations, every one is interested, and there is scarcely a man or woman in any community who is not a well-wisher to the welfare of all. Hence, and in the hope of aiding a good work, the News freely gives of its space to the dissemination of religious knowledge.

THE Democratic county meeting of Greene has endorsed Capt. Swift Galloway, to the judicial convention, at Goldsboro the 6th of June, for the position of Solicitor. Galloway is a good lawyer, and one of the noblest fellows the State has ever produced, and the appreciation of the gallant Democracy of Greene is not misplaced. Messrs. John D. Stanford, of Duplin, John C. Wooten, of Lenoir, and Hugh F. Murray, of Wilson, are also candidates, and the convention has a fine opportunity for displaying a nice sense of discrimination, for every one of them are number one lawyers and gentlemen of the first water. Of the younger candidate, Mr. Murray, to say of him, that, for one of his age, his legal and literary attainments are the highest of any man in the State, is no disparagement of any of his worthy and meritorious rivals.

The State Medical So ciety. In the News to-day is concluded the proceedings, of the State Medical Society, in annual session this week at Golds-

These proceedings were stenographically reported for this paper, and it is the general verdict of the profession, that the Society has been better and more faithfully reported than on any former occasion. But for the limited space at command, the papers read and the speeches made would have been given in the fullest detail.

This society is an institution in our midst that commends itself to the public in the highest degree. There is no profession or occupation with which the people have more intimate relations, or upon which they are so entirely dependent as that of the medical profession. The doctor is the main-stay and chief hope of every community. He is the good Samaritan, always going about relieving pain, soothing distress and rescuing life. Strike him out or existence and the world would be thrown into consternation. Deprive mankind of his services and skill, and suffering and mortality would held high carnivals of scourge and epidemic. Of all learned professions, that of medicine is the most important to manking.

Of the Saviour of the world it was said he was the Great Physician. What we owe to the physician we shall never realize, and never pay; for his is the largest charity of all. His vigilance never relaxes. To him comes no holiday-no period of rest. From the sufferings of the sick room, from the distressing scenes of the chamber of death, when other men sleep, he repairs to his midnight study, and poring over volumes of medical works, seeks to find something that may have escaped him in his study and his practice, whereby he may relieve a pain, or save a life. While other men, and those of other profes. sions, indulge the comforts of their homes, and at seasonable hours retire to sleep, the doctor breasts the storm, goes abroad at night in all weathers, traverses dark and dreary paths and byways, in answer to the summons of also dangerous to harmony? This was either prince or peasant. His work all that Governor Vance's friends asked takes him from the palaces of the rich in 1872, it is all they ask now; and we to the hovels of the poor, and regard- happen to know that the indignation less of the consideration of compensa- excited among the Democratic masses by the bolt of that year is the sole cause

ty and his profession. To appreciate this profession of hard-meetings. The people don't want to working, over-taxed and under-paid be treated in that way again.

practitioners, ought to be the duty of educators, and all men. To improve the efficiency of their profession is the work in which the medical men of the world are daily and hourly engaged. And it is this that annually calls the physicians of North Carolina together in general consultation; that each may learn, by comparison of notes, something from the other, and by united and continued effort augment the proficiency of the whole body; and so guard their profession that no unworthy member shall enter it, or quack impose upon and afflict the people.

The objects of the State Medical Society are praiseworthy. It deserves at the hands of the press and public all the aid and encouragement that can be given. The News is gratified at having been, in a small degree, able to contribute something in behalf of the Society, and for the public benefit. It congratulates the medical gentlemen of the State upon their meeting at Goldsboro, the prosperous condition, and the efficiency of their association, and in behalf of humanity tenders them, individually and collectively, the thanks they are, in the very highest degree. entitled to.

The Thompson Trial at Wilson. After remaining out three hours and thirty minutes, the jury in the Thompson murder trial brought in a verdict of not guilty.

This announcement will be a surprise te most people who have read the testimony, as it was to those who attended the sessions of the court. But it is the verdict of a respectable jury properly constituted, and in that verdict the public will acquiesce. But the unforunate man, though saved from the galows, is not vindicated respecting his illtreatment of his wife through a long bly. Final action will be taken on series of years; nor will the verdict of the jury relieve him of the suspicion entertained by his neighbors of the Presbyteries, which have taken action in crime laid to his charge. If guilty, his own conscience must lash him through delegates. The Presbyteries are about the world; if innocent, he is to be doubly pitied, and it will be the part of humanity to add nothing to the burden he already bears.

A Family Lecture. From the Boston Transcript (Rep.)

He who sows distrust, endeavors to perpetuate hatred, or fosters prejudices between different parts of the Union, does the same work with the man continually holding up to view those hideous acts committed in the hot passion of war. He continues, in his limited sphere, the effort of the South to destroy

It Needs Confirmation.

From the Baltimore Gazette. John Sherman, the de facto Secretary of the Treasury, sat in his office in the Treasury building yesterday, with his window open and a tin trumpet in his ear, waiting to catch the first echo from the Capitol. Toward evening he arose and contributed six dollars to the conscience fund. This last statement will be very generally doubted in well-informed circles.

In His Rural Retreat.

Washington Capital. Our worthy chief, Colonel Donn Piatt, is ill at Mac-a-cheek, his country place in Ohio. We say this because there seems to be an unusual number of evil-countenanced fellows attached o clubs and hanging about our office. We apprehend they might mistake and erack the skull of an innocent man-a miserable blunder that happened twice the absence of the senior editor.

Grain in the West, New York Times.

Milwa ukee warehouses are stored with 496,363 bushels of wheat, 20,133 bushels of corn, 19,607 bushels of oats, 16,-393 bushels of rye, and 357,490 bushels

A High Moral Contribution.

F. om the Philadelphia Times. The Republican managers who are raising funds for the campaign are determined that the President shall put his name down for a \$5,000 contribution, just for the moral effect of the thing, even if they have to raise the money from some other source. The moral effect of such an act on the part of the President of the United States must be tremendous, no matter what the sum is.

Lee and Johnston.

New York Star: Next to Robert E. Lee, Genera-Joseph E. Johnston was the ablest captain the Southern Confederacy possessed. His silence since the war is not less noteworthy than was his valor in the field, and affords a happy illustration of the reticence and modesty that proverbially accompany real abilities. The General is at present visiting his old companion in arms, Gen. Longstreet, at Gamesville, Ga. The meeting of the veterans has been celebrated as a holiday occasion by the people of that sec-

Can never be possessed by those whose digestive and assimilative organs are in a state of chronic disorder. Weak stomachs make weak nerves. To restore vigor and quietude to the latter, the first must be invigorated and regulated. The ordinary sedatives may tranquilize the nerves for a while, but they can never like Hostetter's Stomach Bitters, remove the causes of nervous debility. That superb invigorant and corrective of disordered conditions of the alimentary organs has also the effect of imparting tone to the nerves. The deficate tissues of which they are constituted, when weakened in consequence of impoverishment of the blood, resulting from imperfect digestion and assimilation, draw strength from the fund of vitality developed in the system by the Bitters, which imparts the required impetus to the nutritive functions of the stomach, enriches the circulation, and gives tone and regularity to the secretive and evacuative organs. At the appointed hour the procession left the church, preceded by the Oak City Brass Band, and moved to the R. & G. Depot. Here they embarked on the waiting train. The 12 commodious coaches of this soon filled with a party numbering about 900. Under charge of Col. L. L. Polk, Chief Marshal, Mr. J. J. Joiner, Assistant Chief and 24 Marshals, all were safely and comfortably seated. Watching carefully over all was W. H. Pace, Esq. the efficient and urbane Superinten-dant of the school, assisted by the corps

of teachers. A number of pupils from the D. D. & B. Asylum participated in the ex-

cursion. The train moved off, the rain cease lessly dropping; and made good time until Wake Forest was reached. Here the young collegians, in full force embarked, having been given holiday for the occasion. A brief stoppage was next made at Franklinton, where pas-sengers were taken up. Arrived at Kittrells, the destination, the cars were emplied of occupants, who by every means of locomotion, sought the springs, the place of rendezvous, half a mile away. The shower was by this time ended, though the clouds still low. ered. The beautiful grounds of the springs once reached, the pleasure seekers wandered at their own sweet will wherever fancy led. The vacant buildings were thrown open, and were filled by promenaders. The sky grew each moment brighter, till at length sun beams glinted through the arches of the grove. The scene was a picturesque one, the lawn with its groups of promenaders, the balconies and windows tenanted by happy occupants. There were no exercises whatever, the festivities being delightfully informal.

The band rendered music capitally, and contributed much to the days pleasure. The mineral spring was visited by unmbers, and its sparkling waters quaffed with zest.
